get how acceptable GLOVES are to everybody. No matter how many pairs a body owns-one's Glove box is never overstocked.

If one pair looks too insignificant-make it two-We have prepared some neat little cases that will

just hold a couple of pairs. If you select one for the street-and the other for "full dress" they will make a very happy combina

tion-and touch a "weak spot" to whoever you send

At the same time you cannot go barehanded your selves. Look out for number one At our counter you will find the "NOVELTIES"

and the "COMFORTS"-from our celebrated makers They set the fashion-you know as well as lead the world in the quality of their creations. The fit is of as much importance as the skin or the fabric. That is a special care with these "Glovers" who supply us. They make provision for every size and shape of hand. So if you are buying for yourselves or to give away-there is a certainty of satisfaction in whatever you get here that sets your mind at case
